Amendment No. 5

AMEND House Bill No. 77 by deleting all language after the enacting clause and substituting instead the following:

SECTION 1. Tennessee Code Annotated, Title 39, Chapter 15, Part 2, is amended by adding the following new section:

(a)

(1) Notwithstanding sections 39-15-201, 39-15-211, and 39-15-212, this section governs abortion. Sections 39-15-201, 39-15-211, and

39-15-212 shall not be enforced unless this section is temporarily or permanently restrained, enjoined, or otherwise unenforceable and only in compliance with subdivision (a)(2); provided, any conduct committed shall be prosecuted pursuant to § 39-11-112.

(2)

(A) Except as otherwise provided in subdivision (a)(2)(B), §§ 39-15-201, 39-15-211, and 39-15-212 are revived and shall be enforced if:

(i) This section or its application to any person or circumstance is held invalid or unconstitutional by judicial order;

(ii) This section is temporarily or permanently restrained or enjoined by judicial order;

(iii) This section is not otherwise enforceable for any reason during the pendency of litigation challenging this section's validity or constitutionality; or

(iv) The attorney general does not defend the validity or constitutionality of this section pursuant to § 8-6-109(b) or agrees not to enforce this section during the pendency of any litigation challenging this section.

(B) Whenever a temporary or permanent restraining order or injunction is stayed, dissolved, or otherwise ceases to have effect, this section shall have full force and effect and govern abortion.

(b) A person shall not purposely perform or induce, or attempt to perform or induce, an abortion upon a pregnant woman when the pregnancy is viable.

(c)

(1) It is an affirmative defense to any criminal prosecution brought under subsection (b) that the abortion was performed or induced, or attempted to be performed or induced, by a licensed physician and that the physician determined, in the physician's good faith medical judgment, based upon the facts known to the physician at the time, that either:

(A) The pregnancy was not viable; or

(B) The abortion was necessary to prevent the death of the pregnant woman or to prevent serious risk of substantial and irreversible impairment of a major bodily function of the pregnant

woman. No abortion is authorized under this subdivision (c)(1)(B) if performed on the basis of a claim or a diagnosis that the woman will engage in conduct which would result in her death or substantial and irreversible impairment of a major bodily function or for any reason relating to her mental health.

(2) Except in a medical emergency that prevents compliance with the viability determination required by this section, the affirmative defense set forth in subdivision (c)(1)(A) does not apply unless the physician who performs or induces, or attempts to perform or induce, the abortion makes the viability determination required by this section and, based upon that determination, certifies in writing that, in such physician's good faith medical judgment, the pregnancy is not viable.

(3) Except in a medical emergency that prevents compliance with one (1) or more of the following conditions, the affirmative defense set forth in subdivision (c)(1)(B) does not apply unless the physician who performs or induces, or attempts to perform or induce, the abortion complies with each of the following conditions:

(A) The physician who performs or induces, or attempts to perform or induce, the abortion certifies in writing that, in such physician's good faith medical judgment, based upon the facts known to the physician at the time, the abortion is necessary to prevent the death of the pregnant woman or to prevent a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman;

(B) Another physician who is not associated in a practice with the physician who intends to perform or induce the abortion certifies in writing that, in such physician's good faith medical judgment, based upon the facts known to the physician at the time, the abortion is necessary to prevent the death of the pregnant woman or to prevent a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman;

(C) The physician performs or induces, or attempts to perform or induce, the abortion in a hospital that has appropriate neonatal services for premature infants. This requirement does not apply if there is no hospital within thirty (30) miles with neonatal services and the physician who intends to perform or induce the abortion has admitting privileges at the hospital where the abortion is to be performed or induced;

(D) The physician who performs or induces, or attempts to perform or induce, the abortion terminates or attempts to terminate the pregnancy in the manner that provides the best opportunity for the unborn child to survive, unless that physician

determines, in such physician's good faith medical judgment, based upon the facts known to the physician at the time, that the termination of the pregnancy in that manner poses a significantly greater risk of the death of the pregnant woman or a significantly greater risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman than would other available methods of abortion;

(E) The physician certifies in writing the available methods of abortion or techniques considered and the reasons for choosing the method of abortion or technique employed; and

(F) The physician who performs or induces, or attempts to perform or induce, the abortion has arranged for the attendance in the same room in which the abortion is to be performed or induced, or attempted to be performed or induced, at least one (1) other physician who is to take control of, provide immediate medical care for, and take all reasonable steps necessary to preserve the life and health of the unborn child immediately upon the child's complete expulsion or extraction from the pregnant woman.

(4) A pregnant woman upon whom an abortion is performed or induced, or attempted to be performed or induced, in violation of subsection (b) is not guilty of violating subsection (b), or of attempting to commit or conspiring to commit a violation of subsection (b).

(d)

(1) Except in a medical emergency that prevents compliance with this subsection (d), a physician shall not perform or induce, or attempt to perform or induce, an abortion upon a pregnant woman, unless, prior to the performance or inducement of the abortion, or the attempt to perform or induce the abortion, the physician determines, in the physician's good faith medical judgment, that the pregnancy is not viable.

(2) In making a determination under subdivision (d)(1), the physician shall use a test that is:

(A) Consistent with the physician's good faith understanding of standard medical practice; and

(B) Appropriate for the estimated gestational age of the unborn child and the condition of the pregnant woman and the woman's pregnancy.

(e) Except in a medical emergency that prevents compliance with this subsection (e), a physician making a determination under subdivision (d)(1) shall record in the pregnant woman's medical record the estimated gestational age of

the unborn child, the test used for detecting a fetal heartbeat, the date and time of the test, and the results of the test.

(f)
